

FINAL PROJECT – Individual Report [Final Week]

Group Name: JaiJaiSungLui

Group Number: Group 3

Name: Nathi Ritnatikul

Calendar Week: CW44

Date: [Nov 3–9, 2025]

Week 5 Progress:

- Finalized both auto robot and manual robot with optimized design adjustments
- Coded the manual robot control system, allowing the robot to be able to be controlled using a controller.

Challenges & Solutions:

- **Challenge 1:** The design of the striker arm is too heavy using aluminum parts
- **Solution:** CAD a 3D part so that we can adjust the weight of the arm and its design.
- **Challenge 2:** When intaking the ball, it sometimes falls to the ground instead of getting into the launcher.
- **Solution:** Making an intake rail for the ball to be able to slide into the launcher properly.
